

## SlenderLed Solutions<sup>®</sup> BatteryPack BP-1000

**“Bring LED Lighting to any indoor location with our Rechargeable Slenderled Solutions VR BP -1000 LED colour changing PAR 64 Uplighter”**

### SlenderLed Solutions VR BatteryPack BP-1000

This re-chargeable LED PAR64 Colour changing unit is ideal for uplighting Marquees and function suites when a fast setup time with minimal cabling is required.

Simply connect to a suitable mains supply and leave on charge overnight and you will get a minimum of 8 hours operation from these stylish and compact uplighters. With the option of full infra-red remote control there is no need for DMX when setting up, however they can be connected to a suitable DMX Desk or our RGB Easy Controller if constant control of the uplighters is required.

These units can also be operated directly from the mains if cordless operation is not required making them a very flexible alternative to standard PAR64 uplighters.

Optional Vrir
