This compact, gel-filled wire connector from the Raytech range provides a reliable, water-tight solution for outdoor and underground wiring. It comes pre-filled with a non-toxic, halogen-free, and UV-resistant gel that has no shelf life. The connector features built-in cable glands to prevent cable traction and includes screw connectors. Simply place the wire connectors inside, close the lid, and tighten the end caps to create a fully submersible, IP68-rated seal.

Dimensions (Unit: mm)

Notes:

- Ensure the waterproof end caps are fully tightened to secure the cable and maintain the IP68 water-tight seal.
