LEDTech In-line Rotary Installation Dimmer 12/24v 8 Amp

Product Code:	100.623
Product Type:	Dimmer / Controller
Guarantee Period:	1 year
IP Rating:	IP20 (Indoor / Non-Waterproof)
Input / Output Voltage:	12V / 24V DC
Maximum Current:	8Amp
Wattage Capacity:	96W to 192W
Size (L x W x H):	89mm x 58mm x 50mm
Dimmable:	Yes
Certifications:	CE & RoHS

The LEDTech In-line Rotary Installation Dimmer is a practical, professional-grade solution for manually controlling the brightness of low-voltage, single-colour LED lighting systems. Designed to sit directly between the power supply and the LED load, this compact in-line dimmer allows users to adjust light intensity smoothly and reliably using a simple rotary dial. Compatible with both 12V and 24V constant voltage LED drivers, it is highly versatile and ideal for cabinet lighting, signage, display lighting, and architectural accents where straightforward brightness control is preferred.

Dimensions (Units: mm)

Notes:

- Addressing: The DMX starting address code is set using the built-in 10-bit DIP switch.
- Standalone Mode: When not connected to a DMX console, the decoder can be used as a synchronous controller to run built-in programs. Features include basic colour mixing, jumpy changing, and all-colour gradual fade with adjustable speed settings.

UK CA | CE | RoHS Compliant
