Compact 1 to 5 wire splitter for fast and secure cable distribution in low voltage and mains compatible applications. Features easy lever lock latch connectors with no screwdriver required, providing a firm, vibration resistant connection. Rated up to 32A at 250V and suitable for cable sizes from 0.08mm² to 2.5mm² (28AWG to 12AWG). Built in wire gauge indicator ensures the correct 9 to 10mm strip length for reliable performance. Re usable design supplied in a pack of 5 connectors. Ideal for LED strip lighting, LED backlighting modules, control systems and electrical distribution where multiple outputs are powered from a single driver. Perfect for professional installers and DIY users needing a quick, compact and tidy wiring solution.

Dimensions (Unit: mm)

Notes:

- Ensure that you strip back the insulation on your cable to between 9mm and 10mm (using the built-in wire gauge indicator) so that the latch lever will grip the conductor firmly.
